We have released this T and we'll release further part of this T in a massive way. The Pandora Box is open, if we delay we can create .. huge problems for governments. We have to deliver as fast as we can

We finished proving to the government. We dictate from now on what the government needs to do to match up with the T which is coming out. This is something which a lot of KS don't understand. With the release of the T yesterday, and showing it. We do not wait to prove anything. We dictate the new condition, the new structure for man to live.

But be aware we have brought the change, we are not going to bring the change. The change has come.

English Transcription

(:14). This is .. the flight, you went through the door here, the system is set here, and one here. This system was covered ?? not used. Yesterdays sessions we concentrated on one system, because we know by the knowledge and T we have once this comes in will lead to massive increase of the fields. We expect to see shimmer, or ... When you enter the room you will something very clear.

We talked about chair 1, 2, 3 . There are Vision EU on one side .. we have placed to balance the fields in the building .. Seats 1 (P), 2 (STP), 3 (STM), you go through the process of 1 2 3 you enter the system take your time, then you enter system back on 3 (2) to 1.

We have different combinations, sometimes we put you through 2 on this side 1 on that side .. (:16).

They will come back .

Detachment and travel in deep space . (:18).

It's not that you travel in a dream, you are fully aware of it, because we talk to you. We ask you to move chairs, or we see something and we ask you to join us. It's not that you are in a trance or anything. you are fully aware of your physicality (P). One of the ladies speaks clearly about the expansion of the soul, that is was eminent That her was overtaking the dimension (D) .

You write down everything, that becomes the property of the KF for all of us to know in the future. ..

(:20).

Yesterday I was touched by one of our KS ..

You are not here to take, you are here to give as a lover ..

You got to understand there is no gaining in the process of creation. It's all giving. If you go in with that wish, and you'll come out miserably fail ...

(:22). a couple where the husband came in just to take. to experience how he can take ... he took it from his partner, but partner never realized. In the process of the flight, the partner explains, I asked, he refused. It was very clear, We see the sol interaction when they come out.

I am sure we are going to come in just for the fun of it.

The Shaman lady said, this is very different, this is not what we do, it's very different ..

We heard people hear noises but has nothing to do with them ..

I am going to show you one of the videos of one of the first ladies .. (:24).

Don't look at the words, .. the emotions behind it, the energies ..

(:26).

(:28).

First Testimonial: lady from Salzburg ..

(:40). we went to Jupiter ..

Then we went on to the Sun

There was so much love we just melted into this love . We were filled up with this love. From there we went into .. my own bubble, soap bubble .. we all had our own soap bubble. .. I always felt really safe and secure, that's where I really am who I am ..

(:42).

Then we were done , we landed ..

Q: Did you have any wish before you went in ..

I wanted to meet my real family ..

I had the intention to know about my purpose in life, why I am here. I still don't know. The box where this secret is, is unlocked .. (:44).

K- Thank you .. now we can see, when we tell you, you are the captain, you decide. It's not in a dream, you are not in a drug, you haven't been done anything to, It's you who decides, and a very interesting part of this one we listened. When we asked her about her husband, says, I can't remember. And you will see later on when there were 4 of them, they were together as 4. There were 2 couples how know each other, and they went through the system together.

System 1, some people don't feel anything when they go in it, because it's to balance the fields of the physical body ... Some people .. it's for balancing

The Second is for the STP it for holding these little bits together. When it's balanced , people don't want to sit. The 3rd is the collection of the fields of the center, we call the Soul. the control system. Whnever we talk .. when they go back to chair 3 they talk about the intensity is much less. because now we have fulfilled part of the dream. It .. wholeness. you have found peace with you. (:46) .

When people come for the 3rd and 4th we are preparing humanity into the journey of deep space, where there are no cars, and she told you, she went to Mars, didn't want to be in Jupiter, she decided to go to the source, the Sun. We don't hear, the burning, we hear the fulfillment of the love. The ?? the knowledge receive. the love which is received given, she didn't ask for it. This is the beauty of these system.

This is the first time . we bring a number of KS in to monitor this, I am not going to be there all the time.

We are there to go to the next step. I was told yesterday, you are a liar, you lied, you live a lied life. All your life. We go through the facts, the structure and what it is.

Now it is you who decides, takes control ..

The next video the lady is a Shaman. she is an expert in soul travel .. (:48).

It's amazing step in development of people who are aware of their souls .

Video number 2 : Shaman lady ..

K - We are under rocket propulsion .. hears other noise .. (:50).

It was amazing experience talking to this lady when she came out ..

replay if from the beginning. .. (:52). (In German)

(:56).

K- Germans have the same right .. then we get translation ..

Can Mario translate..

Video 3 Romanian Man

(1:44).

You wanted to share to put in all the DNA of the Romanians .. You were there to give. And with it in the first few minutes you said, you felt nothing, was the time you were giving, because you came with that intention. In giving you received what you wanted, a flight, the way you wanted. This is the reality about flight with this system. you didn't come to take.

One of the KS came in to take the knowledge of U, and he nearly walked out empty handed. You went there to give the knowledge of Romanians, the DNA and RNA, as you said. That's why in the first minutes, in a way, you are delivering without you knowing it. In a way, you went with an empty sack, so you got filled up. This is the beauty of it.

We had the same thing with the lady, she was there to give and took everybody to see the best she could show them, and when they were not happy, she said, okay we go somewhere else. She was there to please, she was taken to the soul of the Creator, the Sun. Does not need the professor or the Rabbi or the priest, trying to pretend to see to get to the Sun. The lady made the trip, unknowingly, and the fulfillment brings elevation of the soul.

We'll see this in the coming time. How this lady, (1:46). not abusing the love she received, to fulfill the rest of the mission of her ?? life.

Thank you ..

Q: .. it's very interesting I came with the Cup of U, and I share it with the German and Bulgaria.,

K- Yes I know

I hope you keep and build that connection to become strong enough.

We go to the brother of the, brother and sister. he is one of the serenest people I have seen in a long time. Very young but extremely deep mannered, .. serene, and very naturally control of life. These are what we call the leaders of the future. People who will lead through the essence of knowledge. He's a graduates from Netherlands .. born in Holland. You'll see a different D, he took a long time, I was worried yesterday if he was going to leave at all, any of the seats. He tested and tried every position of the .. controls, of his body arms ... (1:48) .

He was second person in, then his sister joined .. tried being with the passengers together with different people ...

Video 4 of brother first..

My wish was understanding of totality of all the souls. to be in love and peace and completion. (1:50). But I did not achieve it, we did. We start with chair 1, .. you start adjusting to the new fields. For me this felt very subtle, with time becomes more apparent in brain, you feel the buzzing warmth, heat pressure .. one point this subsides and constant not noticeable anymore.

With 2nd Chair, new pressure adjusting to the fields took more time because more field to be adjusted ... more in peace , more emotions .. going through me, but not out of control, present .. (1:52).

When I moved to 3rd Chair, different again .. less present with thoughts, thoughts have found more peace ,, or you don't think anymore ... went into emotion of peace .. you start gradual more and more .. being connected with everything , not the feeling, the filter is becoming less that is making not everything. the sugar melts .. feeling in brain (1:54).

Move to the big system . the beginning as the 3rd chair, but then you know it's not the same ..

More peace the system is willing to work with you .. you become one with the system. So many things happened. you trust yourself with the fields again start traveling easier connecting with all that you were not easily connecting before. enter souls of many people beautiful creatures

(1:56). If feels complete .

After having traveled to some places move to the 3rd chair back. This time when you go back to 3rd chair, notion of completion is faded . 50%, numbers don't really You cannot remember it, you are. To be in balance you slowly find your new balance in Chair again .

On of my intentions was to go home, really go home, This happened more when my sister was in the system. When I was giving more to my sister I was more at home.

(1:58). Even though I try to give to everyone but easier to sister.

Feeling of Home continued but faded again.

2nd Chair .. I want to remind everyone to sign the world peace treaty. That's when we got this beautiful mission reminder we were supposed to go to the Moon.

A lot was going on.

The lady came in .. there is the balance again .. We were reminded we were supposed to go to the moon. (2:00). Going to the moon is an instant. But realizing you have arrived is also a thing . a new environment you are in, realizing all the souls that are already there. .. we love all the souls, especially they already know . I did feel someone was abandoned. but we did find peace together . It was a beautiful journey.

To share and give unconditionally ..

K- Did you take 1 journey to the moon, or 2, did you do it while you were in the system. or did you go when we put the passengers ..

Q: .. I think I was already at the moon before... I had been there before during my own time,. (2:02). before we were reminded of the mission

K- How was it with the group

Q: In the 3rd Chair you start feeling your mind is bigger from the inside.

In the big system I felt a very big connection with every soul.

K- Did you achieve what you came for
Q: more .. I didn't expect anything ...
I want to wish everyone deep peace .. (2:04).

Please come join us let's go Home together

K- It's nice to listen to the rest of this
Q: My name is Gar
(asked question)
Amsterdam my parents came from Turkey ..

(2:06).

Dean: How do you feel in this moment
Q: I feel endless and infinity, and very happy ...

(2:08).

I don't know how much to. I don't want to limit other people for their beautiful experience

D: Your intention was to give to others ... When we set the intention of giving the system connects with us and gives us experience of whatever our intention

Q: .. I felt that the system really want to work with you .. helping you along the way
(2:10). the boundaries of your P start to be less rigid ..

D: Did you sense things with soul level or physical

Q: This changes as I moved on from the chairs .. internal happening, internal
In the big system you feel the winds, (2:12) sounds and smells start to change. very
different smells ..

As you move through the system the visions become more clear. I should say, you are
more at peace with what is moving internally more balanced with your vision. For me it
wasn't like a movie playing inside. .. the vision is more correct with your understanding.

D: you said you felt the sound

Q: that's a good way of putting it, there are already a lot of sounds in the room. It's quiet
but something make sounds. and it kind of start to fade away.

(2:14).

Q: it's an honor I felt everyone we are in this together.

K- .. he is here speaking with the team personally and then we go to the system. .. could
you bring him in.

Q:

K- How do you feel today it's nearly 24 hours after being in the system.

Q: It's been (2:16). (broken up) yesterday was a bit intense .. I started feeling the pressure on the head .. It's been a positive feeling .. especially yesterday in evening you start to find pattern with your life against. I try to assimilate and do it again ..

K- .. we are going to listen to the sister .. (2:18).

Play video 5 of Sister

Marian 21 years old, today first experience. It was very special .. I expected something .. (2:20). When I came in it was very different. I felt a little pressure and changing in my body. I am together with my bother, we tried to connect with each other, we both felt the connection .. it was very special.

(2:22).

Brother and sister together .

Maybe it's interesting talk (2:26).

I did feel you come into the room.

As you moved up the system you were very much in my experience ..

I just started loving you more. Every time how can love you more not make it physical.

Sister. when I came in you were already in chair .. oh, what is he thinking .. what am I going through, I wasn't really focused on us.

(2:28).

K- Yes we had to stop here our sound system failed ..

We'll hear from them tomorrow. (2:30). I walk into the room, would like to take the flight he feels the presence of the sound of the moon. They'll explain. This is what I told, it's instantaneous, we don't need rocket propulsion. We don't need tools of UFOs. The knowledge given to man is so beyond his understanding. but man is like an innocent child .

(3:00).

We keep the prices at this level till we get ..

Our next target, the prices will go to 5,000 Euro, we do that if we reach our target, then it becomes additional information we want to make. We do the same with the Mobile, will become around 10,000 Euro, (3:02). because that is a different target. It's mainly for corporations ..

NASA has a \$10 billion budget.

Any other question.

Q: Stephanie .. (3:04). Do we need to have any preparation for the FEU?

K- No, don't come if you have metal pieces ..

Q: .. Can I meet my dad who passed away a year and a half ago?

K- That's your decision, and if he wants to meet you. Because we know people who been through the system and did what you are asking. We are not telling you or doing anything. We are just developing space travel on the principle of universal system. You have a cancer, .. a guy came in blind in one eye .. these are your, part of your life ...

They sit in the seat 1 to balance the P, seat 2 the energy is different but it's balancing the soul () between the STM and STP, (3:06). seat 3 is totally your soul and what you do with it. ?? We are not offering you anything.

Q: .. In one trip can I do both thing heal my body and visit my father?

K- We are testing a flight system. What you do in the flight system is yours. When you fly from Rome to NY. you go have a food, ... you see your cousin ... The plane doesn't dictate where you go ...

I saw them, but I couldn't talk to them .. (3:08).

We are like Boeing and Airbus, you can make

We just provide that the system is there, you might not get anything out of it, or a lot out of it. Or you might get a lot out of it next year ..

Any other question.

Q: Is it possible to take a dog with me. or can she be like a suitcase with me. ?

K- Of course you can, like if you want to take your child with you

Once you understand how to do it, it becomes very easy.

R: they usually put the animals in special cages ..

K- We don't have cages .. (3:10).

Q: .. how long it will take until all nations can have this for their citizens?

K- We are building it. Maybe we can build 2 this month. You got to see our staff, they are working legs off ..

We endeavor to setup institutes to teach the knowledge of U.

Tehran

In China .. US and Europe ..

(3:12).

We have a problem finding work force in Austria ..

Not MaGrav's toys

Our purpose now is to rapidly expand and release this T

You don't even need the MaGrav

We are going to a new system.

Any other question

Q: .. (3:14). can't

Q: .. Why you don't make a center in every countries.

K- .. can I have about \$50 billion dollars I will open a university .. If you raise \$50 billion we

It's inevitable in a very short time .. (3:16).

Then the governments will act

up to now it was theory. One of the KS called me a liar, he said, you lied about cancer ..

We have released this T and we'll release further part of this T in a massive way. The Pandora Box is open, if we delay we can create .. huge problems for governments. We have to deliver as fast as we can.

Q: If the people are sick they can try it, and if helps ..

K- You know something, (3:18). we are not interested in the health section of this T. The same we are not interested in the CO2 of it. because when you travel in the D of the soul .. is does all the work, to undo all the damages you done to it.

.. we finished proving to the government. We dictate from now on what the government needs to do to match up with the T which is coming out. This is something which a lot of KS don't understand. With the release of the T yesterday, and showing it. We do not wait to prove anything. We dictate the new condition, the new structure for man to live.

Do I need an FDA certificate for my machine? No, it's a flying machine. .. we don't want to speak about it. We had people who came for a different thing and they found the solution for what they are looking for.

I am not there to get approval from FDA. We are a different game. They cannot even imagine this thing exists.

In proving or do something. We develop, release a T.

Why should I worry about it.

The people who have been there have seen it. It's not connected to electricity. One of the KS .. you are using the MaGravs, can we move them the other way. (3:20). When you come in you see. .. we were told to take a flight to moon.

it's all an open space, man has never seen such a T. So why should I go and clean the CO2.. We open institutes to teach this T to be done. Even this T is so obsolete, compared to what is to come.

What is our next position . So FDA, national governments ..

.. the beauty of unification of the STM and the P of the man, of the life on this planet started from 6th of June. Why do I have to worry, I don't need to show. If you have a condition, you go through the system, you go home, and the condition is not there. Are you going to report it to your doctor. No. We will never know what people will have, what they came in, what they go out with. We don't want to know. I didn't know yesterday .. one of the people was blind in one eye, and he wanted to see.

You should have told me, I would have set the FS to fly in a different D. (3:22). I set him into the FS. The same as he sat 2 hours before. He said, for the first time in 4 years I have wetness , tears in my eyes. How can this happen. ..

would he report to FDA or government that I am not blind anymore. Or the people who came with other conditions ..

WE are here to satisfy the STM and not a nation and a government.

The game has changed on the 6th of June, and now we have shown it. Many of you are coming to Linz.

Q: .. In Poland I know people have made this spaceship but it's not exactly this same spaceship

K- They cannot be. The knowledge is not there. Copy is plenty of .

Q:

K- We are not claiming anything, we are delivering a knowledge. the rest of it is with the humans. (3:24).

K- they cannot copy the systems. You can't even see it.

Q: Is it possible to buy ..

K- It 100 million .. we make so high that's it's impossible.

In 2007 bill Gates was very much on top of the KF. He wanted to take control, .. own KF. I told his team in Holland, it's not for sale, Cooperation we do, collaboration we do. KF belongs to humanity.

Any other question (3:26).

Q: .. I represent Brazil in Linz ..

K- Let us know M T F for flight test .?? ?

(3:28). Any other question

Q: Guatua .. thank you for releasing these T ..

K- Man will have a field day with this enjoy this new T

K- Months ago we promised we'd be here on 6ht of June, by fraction of half an hour we met .. the world One Planet ON. (3:30). the 6th of June. from now on the new starts. As the old saying, you have seen nothing yet. Some of you will come and we'll bring the gift of the U. ... bring us the gift of knowledge and 1understanding. There is something I have to tell you before you start. Before you take the journey. Please do not bring any gifts for us in Linz. Bring your souls, .. the gift of your presence. For security reasons we cannot accept gifts. Please if you want to gift a gift, give it as a donation ?? ??

Do not bring gifts for me

We have been betrayed before, and we have seen in past few days a number of Iranian scientists have been killed the same way. My condolences goes to Iranian nation for loss of such a beautiful souls.

But be aware we have brought the change, we are not going to bring the change. The change has come. The first 15, by next week the first 500, and week after and so on. As we increase the numbers .. we try to bring the next step in. we bring gifts from different parts of the U. As a representation of where these are. We give the scientists of the man to decide which planet, where you went, because we don't know where you went. As we heard from 2 or 3 people yesterday. (3:32). I didn't go to Mars, I don't know where I was. But if you bring water, dust, air of that environment we can access where the environment is. Where you actually went.

A game changer has changed the game, and now we play the new game of U.
Thank you for being here .. .

(3:34).
